Some of the highlights include:

- We had the highest-attended Annual Meeting in recent history in Tulsa in April – 1,257 attendees, and over 250 exhibitor personnel came together at the Tulsa Convention Center and DoubleTree Hotel. We hope you and your staff have made plans to attend the 2010 Annual Meeting in Oklahoma City, April 22-24!
- The ODA Journal Editorial Committee, under the direction of Dr. Raymond Cohlmia, was successful in publishing two CE issues; January brought us geriatric dentistry, and October was focused on treating special needs patients. The Committee has additional CE issues planned for 2010.
- The ODA House of Delegates adopted a resolution to begin executing an annual two-day dental mission, the Oklahoma Mission of Mercy (OkMOM). Not a small undertaking, the plans for February’s OkMOM are moving along at break-neck speed and at the time I’m writing this, we have 803 dentist, hygienist, assistant, student, spouse, translator, and other volunteers! The number of volunteers grows each day and I think, more than anything else, OkMOM will be what makes our dentist members the most proud of their Association. If you haven’t volunteered yet, registration is open through January 11, 2010, at www.okmom.org. ALL VOLUNTEERS MUST REGISTER! We still need 300+ volunteers in all areas – please don’t put it off any longer – register today!
- We had an immensely successful 2nd Oklahoma Dental Leadership Summit, where many exceptional ideas were generated and shared among all members of the dental team. I hope you had a chance to read the summaries published in last month’s issue. Your ODA is already hard at work addressing many of the raised issues and implementing some of the initiatives.
- We are finishing the year with $403,894 in reserves, which represents 33% of our operating budget. I would like to thank Dr. Todd Bridges, Chair of the Council on Budget and Finance, and the other Council members, for their leadership and vision. The Board of Trustees voted to approve the Council’s proposed 2010 budget during their November 6th meeting and I’m happy to report, there will again be no increase in your ODA dues. The ADA House of Delegates also approved a 2010 budget with no dues increase during their Annual Session in October. You all have received your 2010 dues invoices and many of you have already paid – THANK YOU! We appreciate your continued support of, and commitment to, organized dentistry on the local, state and national levels!

Of course, these are only a few of the highlights. Expect to see great things out of your Association in 2010!

Are you looking for an end-of-the-year tax deduction? Have we got a suggestion for you! The ODA building is a wonderful asset for YOU, the ODA member. And by owning your building, you are saving your Association a great deal of money! Your building is 7,535 square feet. If, instead of owning, the ODA was renting office space at a modest $20/square foot, the rent would be $150,700 a year! By owning the building with an annual mortgage of $65,000, you’re realizing an annual savings of $85,700! And even more exciting than that…..if every ODA member made a one-time contribution to the ODA Building Fund of only $284, we could completely retire the mortgage, your ODA would see an annual $65,000 reduction in operating costs, AND secure a $1.2 million asset for YOUR Association! A big THANK YOU to those ODA members who have already contributed to the Building Fund – we currently have 316 donors (a full list of these donors can be found on page 21). Pledges total $627,468, which includes the purchases of 42 Pierre Fauchard statues. Please take a moment to read over the enclosed Building Fund brochure and pledge card in the middle of this issue and consider making an end-of-the-year contribution. And we have 33 remaining numbered, bronze miniature Pierre Fauchard statues. These make perfect Christmas gifts and all proceeds directly support the ODA Building Fund. Please find more information on page 20.

Currently, only about 1/3 of our members give to our political action committee, DENPAC. We HAVE to increase this number if dentistry is to continue to have input into state laws that affect your practice, your patients, and your profession. Please send a personal check to the ODA payable to DENPAC in the amount of $165 TODAY. This contribution is not tax-deductible.

Your President-elect, Dr. Tamara Berg, is convening the Council on Nominations and Elections next month. We need your participation at both the state and local levels – Councils, Committees, Task Forces, Officers, etc. – and are hopeful you will volunteer your time and services. They say you get out of something sevenfold what you put into it. Wouldn’t it be nice to get a “return” of $7 for every dues dollar you spend? The ODA is a 100% volunteer-driven organization. We will be much more successful, and we can help you and your patients much more, if you get involved. Contact the ODA today to let us know your area of interest so we can help you get plugged in. PLEASE don’t hesitate to write, call, or E-mail your ideas, recommendations, and even your criticisms. And take time to come by and visit YOUR asset – you’re welcome at YOUR building any time! On behalf of the ODA officers and staff, we wish you a peaceful, warm and loving Christmas, and the brightest and most prosperous 2010!

Endorsed by Oklahoma Dental Association
Automated Appointment Reminder Systems and On Hold Messages Among Products Offered for Members

ADA Business Resources and the Oklahoma Dental Association announced that a new service provider has been endorsed for Members. InTouch Practice Communications (formerly On Hold Advertising, Inc.), which offers message on hold and appointment reminder services, was selected after a careful and thorough review of companies in this category.

InTouch Practice Communications has a long history of working with dental practices and currently has over 3,500 dental clients. Mr. William Schroeder, Vice President at InTouch, says his entire company is looking forward to expanding their service for ADA members. “An on-hold message is a fast and easy way to enhance your practice’s image, increase awareness for your services, and decrease “dropped” calls. Our messages are fully customized and are compatible with all phone systems,” he explains. “And our appointment reminder technology is powerful. Our dental clients report that their telephone and email appointment reminders reduce patient no-shows by an average of 42%.”

Message on Hold

Turn on-hold time into profitable time. Instead of listening to a radio station or dead air while holding, educate your patients about every service you offer with custom messaging produced by InTouch Practice Communication’s dental expert scriptwriters and voice talent.

Engage patients with informative messages. Many on-hold callers prefer messaging to music or silence—and many act upon the messaging they hear. Our custom programs let you to connect with callers who are holding to announce specials, encourage check-ups, or simply support your practice’s professional image.

Target your patients with custom messaging. Seasonal messaging enables you to encourage patients to schedule treatment for milestone moments like weddings, graduations, and family reunions.

Appointment Reminders

Build your practice with an automated appointment reminder system. Dental practices all across the country depend on PhoneTree to confirm appointments and reconnect with lapsed patients using voice, text, and E-mail messaging.

Cut down on missed appointments and increase productivity. Reminders from InTouch Practice Communications’ appointment reminder system are proven to dramatically reduce missed appointments and thus help increase a practice’s productivity.

Stay InTouch with patients. Flexible PhoneTree software not only helps schedule check-ups, but can also announce practice promotions, extend birthday and holiday greetings, follow up on unscheduled treatments, or even welcome someone new to the neighborhood that may be looking for a dentist.

For more information contact InTouch Practice Communications at 877.493.9003 or online at ddsOnHold.com/ADA.

The discounted member price of $1,495 represents a $200 savings off the traditional “meeting special” price of $1,695. In addition, until December 31, 2009, members will benefit from unlimited changes to their on-hold messages, which will be offered at just $199 a year ($100 off regular rate of $299 per year). For more information, call the dedicated customer service line for members at 877-493-9003, or visit www.ddsOnHold.com/ADA.
Baby Bottle Syndrome

What is Baby Bottle Syndrome?
Baby bottle syndrome refers to tooth decay occurring when liquids containing sugar remain in your baby’s mouth for a long period of time - usually from being put to bed with a bottle of milk, formula, or juice. It can also happen with pacifiers that have been dipped into sweet liquids such as honey or syrup. Breast-fed babies allowed to remain at the breast for extended periods may develop a similar condition called nursing caries. What seems like harmless healthy food can turn into destructive acid by the oral bacteria in the child’s mouth and cause cavities (tooth decay). The most common teeth to be affected are the upper anterior (front) teeth since they are some of the first teeth to erupt and therefore have longer exposure to the acid from the sugar.

What should I do to avoid Baby Bottle Syndrome in my baby’s teeth?
> Parents should use damp gauze to wipe a sleeping child’s teeth and gums, and brush the teeth daily from the time the first tooth erupts. This will help to remove the harmful bacteria that change the sugars to acid.
> Use the bottle for nutrition only, not as a routine. Do not allow a child to fall asleep with milk, breast milk, or formula in their mouths.
> Give your child water when he/she is thirsty.
> Wean your baby from the bottle to a cup by the age of one year. You can dilute or water down the liquids gradually over time until there is only water in the bottle.
> Have your dental hygienist or dentist look at your baby’s teeth regularly from the time the first tooth erupts. This brief look can be combined with the parent’s check-up appointment.

How do I recognize Baby Bottle Syndrome?
Parents should make a habit of examining their child’s teeth on a regular basis because, by the time it becomes obvious, it might be too late. Look for spots that don’t brush off along the gum line of the front teeth. Also pay attention to signs of sensitivity, discomfort, or pain when the child eats food that is cold or sweet.

Complications of Baby Bottle Syndrome
Extreme situations may involve the pulp (nerve) of the tooth causing pain. The child may need to undergo a special treatment to remove the pulp, crowns may be needed to replace the decayed tooth structure, or extraction (removal) of the front teeth may be necessary. This may affect the eruption of the permanent teeth, the child’s self-esteem, and/or speech patterns.
Concerned about the Future of Dentistry?

The American Dental Political Action Committee (ADPAC) allows dentists to donate to a common fund that contributes to members of the U.S. Senate and House of Representatives who support oral health issues. By pooling resources, dentists have a significant impact on the political process.

Why do we need ADPAC?
Now, more than ever, the federal government has the potential to be an intrusive presence in the dental office. Regulations such as the FTC Red Flags Rule can drive up the cost of providing care.

Does ADPAC support my party?
Issues important to dentistry, not party affiliation, drive ADPAC.

Is ADPAC effective?
In the 2008 elections, ADPAC backed winners in 93% of House and Senate races. These elected officials listen to their constituent dentists.

Why should I join ADPAC?
ADPAC and DENPAC are a winning team, but only if you are a player. Your support is directly responsible for the ADA’s and ODA’s success. Just think what we could accomplish if all ADA members joined ADPAC.

Get involved now.

Preserving dentistry.
The health care system that works.

ADPAC Basic Membership is $49.
The Capital Club is $200 for individual or $300 for member and spouse; and Capital Elite is $500 for individual or $750 for member and spouse.

To learn more, contact your ADPAC Board Representative Dr. Kim Keisner at ark_dds@msn.com or ADPAC at govtpol@ada.org.

DENPAC
ADVOCATING FOR THE QUALITY OF YOUR PRACTICE AND THE INTEGRITY OF OKLAHOMA DENTISTRY

PUT YOUR MONEY WHERE YOUR VOTE SHOULD BE!

DENPAC MEMBERSHIP
$165

JOIN TODAY, CALL 405-848-8873 OR 800-876-8890!

DENPAC/ADPAC, ADPAC/DENPAC is a federal state and federal political committee that makes contributions to state and federal candidates and committees. Contributions to ADPAC are voluntary and any member has a right to refuse to contribute without reprisal. The contribution guidelines are merely suggestions and a member may contribute more or less or not at all without concern of favor or disadvantage by the association. $49 of each contribution is transferred to ADPAC Federal to support Federal candidates and committees, while the balance remains in the state to support state candidates and committees. Corporate donations will be used exclusively to pay for the administrative and operating expenses of ADPAC. Contributions are not deductible as charitable contributions for federal tax purposes. Federal law requires ADPAC to request the name, address, occupation, and employer for each person whose contributions exceed two hundred dollars ($200.00) or more in a calendar year.
Gordon Christensen:

On Friday, January 29, 2010, Tulsa County Dental Society will host Dr. Gordon Christensen for an all-day CE course. Don’t miss it! Contact Rhonda at 918-451-1017 for more information.

Building Bake Off

Don’t miss the sweetest sale of the season! On January 8th, the ODA will be hosting the ODA Building Bake Off to raise money for the building fund. Come load up on goodies and help pay off the building at the same time! The bake sale will take place all day long.

Don’t forget to brush your teeth afterwards!

Help heal thousands.

Register to volunteer for the Oklahoma Mission of Mercy today! Each volunteer must register individually. www.okmom.org

Dear Registrants;

As a courtesy, we are reminding you that this is the time of year to make sure your Oklahoma Bureau of Narcotics (OBN) registration is current. We mailed out written notices to your last known address and also e-mailed notices to the e-mail address you provided. We are in the process of locating those registrants that have not yet renewed their OBN registration. OBN gives a thirty (30) day grace period and if your registration is not renewed by November 30, 2009, it will be inactivated and all renewals received more than thirty (30) days late will be charged a late penalty of double the renewal fee.

Your assistance in this matter would be greatly appreciated.

Melton Edminster
Chief Agent

November 3, 2009
The Oklahoma Dental Association and the Delta Dental of Oklahoma Charitable Foundation will proudly launch the first annual Oklahoma Mission of Mercy (OkMOM), February 5-6, 2010, at the Tulsa Convention Center.

The Mission will provide two days of absolutely free dental care for up to 2,000 Oklahomans. That’s amazing.

The Oklahoma Mission of Mercy will be a 90-chair fully functional dental facility and will require over 1,000 volunteers to be successful.

This is where you come in.

MAKE A DIFFERENCE, SIGN UP TO VOLUNTEER TODAY!

How do I sign up?
Go to www.okmom.org to register. Each volunteer must register individually.

What types of volunteers do you need?
We need dentists, specialists, hygienists, assistants, and office staff!

What days will I be working?
We will need volunteers February 4th (setup), 5th and 6th (treatment).

OU Dental Students Receive $50,000 in Scholarships from Delta Dental of Oklahoma Charitable Foundation

Ten dental students at the University of Oklahoma College of Dentistry each received a $5,000 scholarship to continue their education, thanks to the Delta Dental of Oklahoma Charitable Foundation. The Foundation recognized and awarded a total of $50,000 to the following scholarship recipients:

- Callie Bouziden of Claremore
- Blaire Bowers of Edmond
- Layla Chafi of Edmond
- Christopher Corbin of Duncan
- Drew Hendrix of Kingfisher
- Heather Koch of Moore
- Ande Loveless of Chickasha
- Molly Marshall of Tulsa
- Marilina Resasco of Norman
- Chris Richards of Edmond

To be eligible for this scholarship, recipients must be residents of Oklahoma and have declared intentions of practicing dentistry in the state after graduation. The Foundation has presented scholarships to OU dental students for eight years.

“We value education and community, and those are the two things we ask in return from these scholarship recipients,” John E. Gladden, President and CEO of Delta Dental, said. “We want them to use their skills and talents to help provide dental care to deserving Oklahomans not only in the community but across the state.”

The scholarships awarded by the Foundation continue supporting the non-profit organization’s goal of providing greater access to dental care and education in Oklahoma. The funding for the scholarships is part of the $1.5 million the Foundation has given this year to dental health and education-related projects and initiatives in Oklahoma.

For more information about the Foundation or to download a directory of free and low-cost dental care resources throughout the state, visit www.DeltaDentalOK.org/foundation.

CE Preview: Robert J. Cronin, DDS, MS

Dr. Robert J. Cronin, DDS, MS, is the Director of the Postdoctoral Prosthodontics Program and Professor at The University of Texas Health Science Center at San Antonio Dental School. He received his DDS degree from Georgetown University and completed a three-year postdoctoral program in Prosthodontics at Wilford Hall USAF Medical Center, receiving a Master of Science Degree from The University of Texas Dental Branch at Houston. Dr. Cronin is a Diplomate of The American Board of Prosthodontics. He has authored 50 articles and abstracts in refereed journals and presented over 175 invited lectures on prosthodontic and dental implant topics. From 2000 to 2007, he co-authored the Annual Review of Selected Dental Literature: Report of the Committee on Scientific Investigation published annually in the JPD. Dr. Cronin is the President of the American Academy of Restorative Dentistry, the Past President of the International Academy of Gnathology, a Fellow of the American College of Prosthodontics, and a member of the Academy of Osseointegration and other dental professional organizations. He served as the Editor of the Clinical Research Section of the Journal of Prosthodontics and has served on the Editorial Review Boards of three national dental journals. Dr. Cronin is a Past President of the American Board of Prosthodontics.

The Diagnosis and Restoration of the Severely Worn Dentition
Six (6) Hours of CE Available
Saturday, April 24, 2010
9:00 am – 12:00 pm and 2:00 pm – 5:00 pm
Lecture format: Dentists, specialists, and hygienists

In the morning session, Dr. Cronin will examine the patient presenting with a severely worn dentition, an epidemic seen in all dentists’ offices today. Ten different etiological factors of severe wear will be reviewed. Specific clinical findings which target specific etiologies will be described. Dr. Cronin will attempt to increase the attendees’ ability to be clinically interceptive in diagnosing and preventing severe wear. The restoration of the severely worn dentition will be discussed in the afternoon session with particular focus placed on the prognosis-related aspects of restorative treatment decisions. Conventional, augmentive, and implant preparation of the patient will be reviewed. Emphasis will be placed on the relationship of the restoration to the etiology of the wear process. Clinically useful methodologies of determining an accurate treatment occlusal vertical dimension will be presented. Recommendations for long-term maintenance of these newly restored dentitions will also be made. Attendees will learn:

• The causes of the severely worn dentition – 10 different etiological factors reviewed – specific clinical findings described to assist your diagnostic survey.
• That clinical interception is superior to clinical restoration and is possible with early diagnosis of the wear patient.
• Determination of the occlusal vertical dimension of the wear patient – clinical techniques to prevent mistakes.
• Restoration of the severely worn dentition from the perspective of restorative space.
• Maintenance of the reconstructed wear patient.
Our Future, Our Destiny

2010 Oklahoma Dental Association Annual Meeting

April 22-24, 2010
Cox Convention Center
Downtown Oklahoma City

SAVE THE DATE

The ODA Annual Meeting is by far the largest dental meeting in the state! Join over 1,500 dentists and other dental team members as they participate in continuing education, networking, and social events throughout the meeting! Over 68 hours of CE available for you and your staff!

Watch the mail for your ODA Annual Meeting Registration Packet in February!

For more information visit www.okda.org!
Meet the Staff

A series of articles designed to help members put a face with a name of the ODA staff.

Angela Little
Director of Membership & IT

Angela joined the ODA in August 2009.

Interesting Fact: I am Native American. Two tribes. My great-grandmother lived to be 108 and was the oldest Native American on the roll in the United States when she died.

What information/assistance does your position provide for the membership? I provide and insure data integrity for our member records by maintaining the functionality and security of our database system. I serve as staff liaison to the Council on Technology and Electronic Communications, as well as the Oklahoma Mission of Mercy (OkMOM).

As the Director of Membership Records & IT, what goals do you have for your area in the upcoming year? An extremely successful Mission of Mercy is one of my goals for this year since this will be Oklahoma’s first attempt at such an amazing endeavor. I would also like to maximize member recruitment and retention and give our members the technological capability to access more of their ODA information online.

What has been the most interesting part of your job so far? Learning about the various areas of OkMOM and seeing how much of a difference we are going to make in people’s lives in a matter of only two days.

What is one dental-related thing you’ve learned since working at the ODA? More than 51 million hours of school are lost each year by children due to dental-related illness.

Contact Angela at alittle@okda.org

What is your favorite movie? The American President

Favorite book? Crazy Love by Francis Chan and Battlefield of the Mind by Joyce Meyer

Favorite dessert? Strawberry Banana Rendezvous Ice Cream from ColdStone Creamery

Boomer Sooner or Orange Power? I am more of a bronze and blue girl, UCO Bronchos!
As a small business owner, you know just how little your education prepared you for the additional roles you must perform to keep your business running. Why do we remind you of this? We are a small business too and offer all small business owners (A.K.A. Human Resource Directors) two pieces of advice to reduce H.R. related liabilities.

**Use an employee manual consistently among ALL employees &**

**Carry Employment Practices Liability Insurance**

When you purchase an Employment Practices Liability Insurance Policy through A&S, we can help you with your employee manual. Give us a call if you don’t have an employee manual OR it does not have:

- At-will Statement
- Sexual Harassment Policy
- Discrimination Policy
- Gross Misconduct Policy
Features

Pierre Fauchard
Father of Dentistry

This original, life-sized sculpture of the Father of Dentistry was created by ODA Past President, Dr. Gary Gardner, and stands tall at the ODA Building in Oklahoma City. It was erected in 2007 to commemorate the Centennial Celebration of the Association.

You can have your own piece of ODA history and support your state professional organization by purchasing one of the limited bronze miniatures for your office or home. All proceeds directly benefit the ODA Building Fund.

A 16-inch miniature replica can be yours for only $1,400!

Numbered and limited to only 75.

Fauchard, Pierre, 1678 – 1761, French dentist and founder of modern dentistry. He practiced in Paris from c.1715 and was influential in raising dentistry from a trade to a profession. He advocated the sharing of dental knowledge and wrote The Surgeon Dentist (1728, tr. of 2d ed. 1946), long a standard work on dentistry.

For more information please contact the Oklahoma Dental Association today at 800-876-8890/405-848-8873, or by E-mail: sfrantz@okda.org.

December 2009  okda.org 21
New Whitening/Bleaching Report Issued by ADA Council on Scientific Affairs

In September 2009, the ADA Council on Scientific Affairs published a new report on treatment considerations for dentists and patients prior to the provision of tooth whitening/bleaching procedures. This report for the profession is available online at: http://www.ada.org/prof/resources/positions/statements/HOD_whitening_rpt.pdf.

The Council report was developed in response to a resolution adopted by the 2008 ADA House of Delegates, which addressed the growing proliferation of whitening/bleaching procedures offered to the public in non-dental venues, such as day spas, salons, home and garden shows, bridal conventions, retail outlets, and cruise ships. The 2008 House resolution directed the Council on Scientific Affairs to “compile scientific research to describe treatment considerations for dentists prior to the tooth whitening/bleaching procedure in order to reduce the incidence of adverse outcomes.”

The Council’s new report on tooth whitening/bleaching outlines a range of information that should be considered by dentists and their patients, including:

- safety of tooth whitening/bleaching materials in dental and non-dental settings;
- general whitening/bleaching treatment considerations, including examination and diagnosis by a licensed dentist, evaluation of patient habits, lifestyle, and health history;
- whitening/bleaching method-specific considerations;
- role and rationale for dental professional involvement in extracoronal whitening/bleaching treatment; and
- an overview of regulatory and scope-of-practice aspects.

One primary conclusion in the Council report is that “bleaching is best performed under professional supervision and always with a dental examination and diagnosis prior to any type of treatment.” This recommendation is consistent with the dentist’s role in providing ethical and optimal oral health care to patients. Essential to this role are the accurate diagnosis of diseases or conditions, and treatment planning with the patient to maximize oral health benefits and minimize potential adverse events. Also, regarding whitening treatments provided in non-dental retail settings, the Council report notes that “bleaching offered in a mall kiosk or other non-dental venue may present the image of a dental practice and professional supervision without providing the benefits of care from fully trained and licensed oral health care providers.”

The Oklahoma Dental Association encourages member dentists to access the new Council report on tooth whitening/bleaching at ADA.org.
